The Teacher Effectiveness Framework organizes the multiple measures, which comprise Kentucky’s proposed Professional Growth and Evaluation System. They are designed to support student achievement and professional best practice through the domains of Instruction, Learning Climate, Leadership and Professionalism, and Student Growth. The Kentucky Teaching Standards and Kentucky Department of Education’s Characteristics of Highly Effective Teaching and Learning are the foundational documents for the Teacher Effectiveness Framework. The Teacher Effectiveness Framework provides structure and feedback for continuous improvement through individual goals that target student and professional growth, along with school improvement. Teacher performance will be rated for each standard according to four performance levels: Exemplary (4), Accomplished (3), Developing (2), and Ineffective (1). The final performance rating will be a holistic reflection of combined performance across each domain.
## Framework Overview: Domains, Standards, Measures, and Instruments

<th>INEFFECTIVE:</th>
</tr>
</thead>
</table>
| 1.1 Demonstrates content knowledge and research-based practices and strategies appropriate to student learning. *(1.1, 1.2, 1.3, 1.4, 1.5, 3.3, 4.1, 4.5)* | • Teaches content knowledge through research-based practices and strategies that ensure student understanding.  
• Provides opportunities for students to develop connections between academic content and students’ lives.  
• Diagnoses misconceptions related to content and addresses them during or after instruction.  
• Integrates questioning techniques that help students understand content across all thinking and reasoning levels.  
• Addresses the diverse learning needs of each student through appropriate level of content knowledge.  
• Provides instruction to help students develop literacy knowledge and skills across the curriculum.  
• Teaches content knowledge through a variety of activities. | • Uses literacy strategies as a part of instruction.  
• Demonstrates content knowledge.  
• Teaches content vocabulary.  
• Relies on routine methods of instruction to engage students. | • Does not demonstrate the use of research-based practices in instruction.  
• Does not use content vocabulary in instruction.  
• Does not use literacy strategies as part of instruction.  
• Fails to demonstrate content knowledge.  
• Does not engage students in content-based learning activities.  
• Does not demonstrate content knowledge during instruction. |

Possible Sources of Evidence:
- Formal and informal observations
- Lesson and/or unit plans
- Student work samples

- Teacher work samples

---

**Exemplary: (not limited to the following descriptors, but is beyond existing school protocols and structures)**

- Uses various methods (e.g., discovery, investigative, and inquiry learning) to engage and challenge all students’ development of 21st century skills: critical thinking and problem-solving, creative and innovative thinking, collaboration and communication, skills for developing media literacy.
- Demonstrates a rich repertoire of practices, strategies, resources, and technologies that meet the needs of diverse learners.
- Challenges student to think deeply about problems and engages students in a variety of problem-solving approaches.

**Notes:**
**DOMAIN:** Instruction
Teacher demonstrates understanding of current standards and principles by incorporating effective practices, strategies, and technologies that support student learning. Teacher designs and implements instruction that meets the needs of all diverse learners.

<table>
<thead>
<tr>
<th>STANDARD (KY Teacher Standard):</th>
<th>ACCOMPLISHED:</th>

</table>
| 1.2 Plans formative and summative assessments to guide instruction and measure student growth toward learning targets. (2.2, 2.3, 3.3, 5.1, 5.2, 5.3, 5.4, 5.5, 5.6, 6.4, 7.1, 7.2) Possible Sources of Evidence:  
・ Formal and informal observations  
・ Lesson and/or unit plans  
・ Student work samples  
・ Pre- and post-tests  
・ Common assessments  
・ Results of data analysis  
・ Formative and summative assessments  
・ Conferences with students  
・ Goal setting documents  
・ Spreadsheets  
・ Learning logs  |  
・ Evaluates evidence of student growth to demonstrate continuous differentiation of instruction that is informed by formative assessment.  
・ Develops and uses formative assessments to determine student progress, guide instruction, and provide descriptive feedback to students.  
・ Uses formative and summative assessments to measure student performance.  
・ Uses pre-assessments to establish baseline knowledge and skills.  |  
・ Uses assessment data primarily for grading purposes.  
・ Uses a singular measure of student growth.  |  
・ Does not provide opportunities for student involvement in the assessment of their own learning.  
・ Does not use questions to measure student understanding.  |

**EXEMPLARY:** *(not limited to the following descriptors, but is beyond existing school protocols and structures)*

・ Designs and uses authentic performance-based assessments that promote higher-order thinking skills and curricular integration.
・ Uses a variety of pre-assessments to establish baseline content knowledge and skills for the purpose of differentiating classroom instruction.

**NOTES:**
**DOMAIN:** Instruction  
Teacher demonstrates understanding of current standards and principles by incorporating effective practices, strategies, and technologies that support student learning. Teacher designs and implements instruction that meets the needs of all diverse learners.

</thead>
</table>
| 1.3 Develops and communicates student-friendly learning targets that lead to mastery of national, state, and local standards. (2.1, 2.4) | - Involves students in the process of developing and/or deconstructing student-friendly learning targets.  
- Develops challenging and appropriate learning targets based on the needs of all diverse learners.  
- Develops student-friendly learning targets or guiding questions that lead to mastery of national, state, and local standards.  
- Communicates aligned, student-friendly learning targets or guiding questions throughout all phases of the lesson.  
- Develops student-friendly learning targets or guiding questions that relate content in a manner that is meaningful and relevant to learners.  
- Implements a learning sequence using instructional strategies that relate to learning targets.  
- Uses state and national standards to support instructional strategies for all students.  
- Communicates learning targets or guiding questions on lesson plan or for student view. | - Develops learning targets based on general needs of students. | - Does not develop learning targets or guiding questions aligned with national, state, and local standards.  
- Does not use learning targets that meets the needs of diverse learners.  
- Does not include learning targets in lesson plans.  
- Does not communicate learning targets or guiding questions. |

Possible Sources of Evidence:  
- Lesson and/or unit plans  
- Formal and informal observations, student work samples  
- Formative and summative assessments  
- Teacher reflection and self-assessment  
- Posted learning targets  
- Student voice  

- Teacher work samples  
- Common assessments

| 1.4 Designs and implements instructional plans that are data-informed and address students’ diverse learning needs. (2.1, 2.3, 2.5, 3.3, 4.1, 4.2) | Uses assessment data to adapt instruction and address individual student learning needs through intervention and/or enrichment.  
Designs engaging instructional plans based on multiple sources of student performance data and student interests.  
Delivers differentiated instruction based on identified developmental levels, student interests, and learning styles.  
Implements engaging instructional plans based on multiple sources of student performance data and student interests.  
Adapts pacing of instruction based on multiple sources of data and student learning needs.  
Differentiates within the instructional plan to address students’ diverse learning needs. | Attempts to differentiate instruction to address students’ diverse learning needs.  
Implements an instructional plan based only on standards and/or learning targets. | Designs learning experiences poorly aligned to student learning needs.  
Does not address developmental and differentiated learning needs of students within the instructional plan.  
Does not use appropriate data to inform planning or instruction.  
Does not address developmental and differentiated learning needs of students.  
Does not analyze student work and performance data to inform instruction.  
Does not design instructional plans aligned to student learning needs.  
Does not implement instructional plans aligned to student learning needs. |

**Possible Sources of Evidence:**  
- Formal and informal observations  
- Lesson and/or unit plans  
- Student work samples  
- Pre- and post-tests  
- Common assessments  
- Benchmark assessment  
- Results of data analysis  
- Formative and summative assessments  
- Conferences with students  
- Learning logs  
- Resources for instruction  

**EXEMPLARY:** *(not limited to the following descriptors, but is beyond existing school protocols and structures)*  
- Designs instructional plans that allow for fluid grouping and re-grouping of students based on individual, group, and whole-class learning needs.  
- Designs standard-based instructional plans based on multiple sources of student data, interests, background, and cultural knowledge.  
- Implements standard-based instructional plans based on multiple sources of student performance data, interests, background, and cultural knowledge.  
- Ensures student involvement in the design, review, and modifications to data-driven instructional practice.

**NOTES:**
**DOMAIN:** Instruction
Teacher demonstrates understanding of current standards and principles by incorporating effective practices, strategies, and technologies that support student learning. Teacher designs and implements instruction that meets the needs of all diverse learners.

### STANDARD (KY Teacher Standard): 1.5 Integrates available technology to develop, design, and deliver instruction that maximizes student learning experiences. (6.1, 6.2, 6.3, 6.5)

**Possible Sources of Evidence:**
- Formal and informal observations
- Lesson and/or unit plans
- Teacher-sponsored clubs
- Resources for instruction
- Teacher schedules
- Student productions (e.g., digital photography, videos, podcasts)
- Teacher and student web pages

**ACCOMPLISHED:**
- Integrates varied and authentic opportunities for all students to use appropriate, available technology to further learning.
- Implements research-based, technology-infused instructional strategies to support learning of all students.
- Uses technology to equalize learning opportunities for students with diverse learning needs.
- Models and reinforces ethical uses and applications of technology information and communication.
- Uses appropriate technology to design instruction that supports and extends learning of all students.
- Incorporates technology into the design and implementation of instructional plans based on student learning needs.
- Uses technology to implement instruction that facilitates learning.
- Uses technology during instruction to engage students.
- Demonstrates the use of technology in the implementation of the instructional plan.

**DEVELOPING:**
- Uses technology to design instruction.
- Uses technology for managerial, communication, and procedural tasks.
- Uses technology for acquisition of skills such as word processing and keyboarding.
- Uses technology for acquisition of skills such as word processing and keyboarding only.

**INEFFECTIVE:**
- Uses technology and/or technology resources in ways that do not support instructional goals.
- Does not use technology to support the diverse learning needs of all students.
- Does not use available technology to assist in the assessment of student learning.
- Does not demonstrate the use of technology in the implementation of the instructional plan.
- Fails to use available technology to assist in the assessment of student learning.
- Does not use technology for planning or instruction.
- Does not use technology for planning or instruction.
- Does not adhere to acceptable use policies for technology.
| Uses available technology to assess student learning and manage data. |
| Demonstrates use of technology within the design of the instructional plan. |
| Uses technology during instruction to enhance content delivery. |

**EXEMPLARY: (not limited to the following descriptors, but is beyond existing school protocols and structures)**

- Provides students with choices for appropriate and meaningful use of technology to facilitate and extend their learning in new and engaging ways.
- Designs and implements instructional plans that incorporate technologies that make connections for students to community, society, and global events.
- Designs and/or uses tools which empower students to use technology to assess and monitor their own learning.
- Uses technology to extend the classroom environment for student to create a global learning community.

**NOTES:**
**DOMAIN: Learning Climate**
Teacher creates a safe, supportive, respectful, and engaging learning environment where each student has the opportunity to grow and learn according to his/her individual needs.

<table>
<thead>
<tr>
<th>STANDARD (KY Teacher Standard):</th>
<th>ACCOMPLISHED:</th>
<th>DEVELOPING:</th>
<th>INEFFECTIVE:</th>
</tr>
</thead>
</table>
| **2.1 Establishes a positive, respectful, and safe learning environment where individual needs and risk taking are valued.** (3.2, 3.3, 3.4, 3.5, 4.2) | - Proactively involves all students in establishing clear standards of conduct which are aligned with school and district policy.  
- Creates a learning environment in which students are motivated to take risks and learn from mistakes.  
- Demonstrates awareness of and sensitivity to students’ backgrounds, ethnicities, cultures, skills, interests, and special needs.  
- Creates a classroom environment that fosters a love of learning and creativity.  
- Maintains a fair, respectful, safe, and productive classroom environment conducive to learning and the emotional well-being of all students.  
- Models and shares strategies for a physically and emotionally safe learning environment.  
- Models and shares strategies for a respectful learning environment.  
- Models tolerance of all students, including using language that is respectful.  
- Creates a culture that celebrates student successes and accomplishments. | - Encourages students to treat others with respect. | - Does not design a classroom that encourages student interaction.  
- Allows interactions that are inappropriate or insensitive among students (e.g., sarcasm, put-downs, or conflict).  
- Permits students to use language that is disrespectful of other students and groups.  
- Does not respond to bullying in the classroom or school.  
- Does not establish and teach classroom routines and procedures.  
- Does not report or take steps to correct unsafe or unhealthy conditions observed at school or in the classroom.  
- Criticizes students for expressing diverse ideas.  
- Does not report suspected child abuse or neglect.  
- Uses language that is disrespectful of students and groups.  
- Engages in interactions that are inappropriate or insensitive to students (e.g., sarcasm, put-downs, or conflict). |
- Maintains a classroom environment that promotes the emotional well-being of all students.
- Promotes acceptance of diverse cultures.
- Establishes standards of conduct which support mutual respect and promote safety.
- Responds appropriately to safety concerns, including bullying.
- Maintains a classroom environment where students are encouraged to learn from each other.
- Accepts a variety of student ideas or expressions of cultural diversity.
- Maintains a classroom environment that promotes the learning of each student.
- Treats each student with respect.
- Requires students to treat each other with respect in the classroom and school.
- Establishes standards of conduct which support mutual respect.
- Maintains a classroom environment that is conducive to learning.
- Demands all students treat others with respect.
- Designs a classroom that encourages student interaction.
- Adequately supervises students at all times.
• Establishes standards of conduct which promote safety.

EXEMPLARY: (not limited to the following descriptors, but is beyond existing school protocols and structures)

• Builds a sense of anticipation and excitement for learning to keep students focused and motivated for the learning process by providing a classroom environment that is emotionally and physically safe for all students.
• Creates a classroom environment in which students lead the learning.
• Creates a culture that embeds and celebrates student successes and accomplishments in the classroom.
• Empowers students to contribute to the effective design of classroom routines and procedures.

NOTES:
**DOMAIN:** Learning Climate
Teacher creates a safe, supportive, respectful, and engaging learning environment where each student has the opportunity to grow and learn according to his/her individual needs.

- Gifted service plans  
- Meeting minutes  
- Master schedule  
- Formal and informal data  
- Agendas  
- English Language Learner district plans  
- Communication logs  
- Resource requests  
- Program service plan (PSP)  
- Formal data  
- Informal data  
- Home visits  
- Parent trainings  
- Technology outreach  |  
- Engages parents in ways that they can become active in helping their student progress to the next level of achievement.  
- Collaborates with other school/district/community partners to enhance student/school success.  
- Analyzes research studies with colleagues to address student or school needs.  
- Collaborates with peers across disciplines to develop integrated, student-friendly learning targets.  
- Regularly integrates parents’ and others’ expertise to meet student needs.  
- Communicates with parents, community members, and other stakeholders as resources in an effort to meet school or classroom needs.  
- Reaches out to parents or others in positive, non-traditional ways.  
- Uses available networking applications to communicate with students and parents to enhance student learning and curricular outcomes.  |  
- Provides little or no information to parents.  
- Provides little or no information to parents or responds insensitively to parent concerns about student progress.  
- Does not collaborate with school leaders to establish student growth goals.  
- Fails to collaborate with colleagues, parents, and others.  
- Does not respond to parent concerns about student progress.  |
| • Collaborates with colleagues, parents, and others in an effort to meet the needs of all students. |
| • Collaborates with parents in an effort to support student and school success. |
| • Communicates to parents the achievement of expectations, either through technological or traditional means. |
| • Enhances professional growth by collaborating with colleagues. |
| • Regularly communicates results to appropriate stakeholders. |
| • Communicates to parents the evidence of student performance, via technological or traditional means. |
| • Collaborates with colleagues in an effort to meet the needs of students. |

**EXEMPLARY:** *(not limited to the following descriptors, but is beyond existing school protocols and structures)*

- Collaborates with peers to design and implement instructional plans that are data-informed and address students’ diverse learning needs through mentoring and modeling.
- Works with higher education partners to facilitate growth of schools and students in the region.

**NOTES:**
**DOMAIN:** Student Growth  
Teacher contributes to student academic growth and overall school success.

**STANDARD:**
4.1 Contributes to overall school success and the academic growth of all students, regardless of demographics (e.g., socioeconomic status, ethnicity, gender, disability, prior achievement).

**Possible Sources of Evidence:**
- Formative assessment results
- Summative assessment results
- Student work analysis
- Program reviews
- Interim benchmark assessments
- Data disaggregation matrix
- Gap goals and progress documentation
- IEPs, ILPs, PSPs, GSPs
- College readiness
- Graduation rates
- Student growth percentiles
- Dropout rates
- End-of-course exams
- Student performance
- State assessment
- NRTs

- Meeting minutes
- Participation survey

**EXEMPLARY:** *(not limited to the following descriptors, but is beyond existing school protocols and structures)*
- Multiple measures validate student academic growth or achievement that meets or exceeds the collaboratively established school goals or student learning objectives.

RESEARCH BASE FOR TEACHER EFFECTIVENESS FRAMEWORK

INSTRUCTION DOMAIN:

1.1 Research-based Practices

1.2 Assessment of Learning

### 1.3 Student-Friendly Learning Targets

### 1.4 Data-informed Planning

### 1.5 Technology Integration

### Learning Climate Domain:

#### 2.1 Safe Learning Environment

### 2.2 High Expectations

### 2.3 Effective Use of Resources

**LEADERSHIP AND PROFESSIONALISM DOMAIN:**

### 3.1 Leadership Activities

### 3.2 Professional Growth Plans

### 3.3 Professional Collaboration

**STUDENT GROWTH DOMAIN:**

4.1 **Student Growth**
